

TMC Integration with SAP Concur

TMC delivers local market compliance and control along with significant cost savings by consolidating, analysing and auditing your business mileage and fuel card data.

Our award-winning services reduce internal administration and support your employees.

Using our app, employees log their business trips on the go. We check each and every journey, ensuring compliance with your policy.

Once checked, we send an expense file automatically into SAP Concur, straight into the employees' claim file, ready for Line Manager approval.

How you benefit

▶ Reduced Costs

We save our clients an average of 15.4% off their fuel expense bills by ensuring that only verified business mileage is reimbursed and fuel cards are comprehensively managed and controlled.

▶ Less Administration

Employees can log their business journeys automatically whilst on the move through our easy to use mobile app. Private fuel deductions are calculated and presented in a monthly payroll report.

▶ Duty of Care

Detailed data and reporting is available on each business trip which can be used to ensure your driving at work policies are adhered to.

In addition, we can monitor driver behaviour by capturing data from the device's in-built accelerometer, gyroscope and GPS; we can report on drivers' speeding, acceleration, braking, cornering and phone interaction (excluding Bluetooth calls).

▶ Tax Compliance

Our systems are designed to comply with local market tax requirements and store all documentation required for tax inspections.

▶ All Employees, One Solution

Our products can cover every employee travelling on a business trip in any vehicle. This includes employees with or without company fuel cards, company car drivers, cash allowance takers, occasional business drivers, commercial vehicle drivers or even electric vehicle drivers, the TMC systems are designed for all. TMC provide one solution for your entire employee base across all your global markets.

▶ Actionable Management Information

In addition to SAP Concur integration, you will receive access to our online dashboard that provides actionable management information across your entire employee base. The dashboard enables you to see both the high-level picture as well as how your fleet is performing at a market/regional/departmental/ individual level. This robust information can be used to help you optimise your global fleet strategy.

We also offer a number of unique services to Concur clients;

Compliance+

Our Occupational Road Risk Programme For All Employees

TMC offers a full suite of services to improve your employees' safety and to reduce their risk whilst driving.

Driving on business is typically one of the most dangerous activities your employees undertake.

TMC's proactive service is all about improving the safety of your employees whilst driving on business. We ensure any employee travelling in a vehicle is compliant with each markets' legal duty of care requirements.

Through our app, we can also monitor your drivers' wellbeing whilst on the move. Capturing data from the device's in-built accelerometer, gyroscope and GPS; we can report on drivers speeding, acceleration, braking and cornering and phone interaction (excluding Bluetooth calls). The app scores each journey and creates an average score for each employee.

Compliance+ encompasses drivers who use a company-provided vehicle, pool or rental vehicle, or their own personal vehicle.

For the employee, we can undertake:

- ▶ Monitoring and scoring of driver behaviour
- ▶ Driver Licence Check
- ▶ Eye-sight check
- ▶ Risk Assessment
- ▶ Online driver training

For the vehicle we audit:

- ▶ Insurance policies
- ▶ MOT
- ▶ Road tax
- ▶ Vehicle safety inspections
- ▶ Servicing
- ▶ Fluids
- ▶ Tyres

All these services are deployed seamlessly through our App and can also be accessed via a desktop.

Although legislation varies around the globe, with our international best practice standard, you can be assured that your driver management policies and systems are effective and sustainable, wherever you operate.

We have designed Compliance+ to be completely flexible so you can choose the elements of the service you need.

Powerful Reporting Suite

Our Compliance+ reporting suite gives every division, every market, every region full in-depth analysis of their overall occupational road risk status. Our simple “red, amber, green system” clearly highlights the areas of excellence and also the areas of concern.

We provide recommendations to reduce the level of risk.

We can also gamify our reporting suites to provide some competition between employees to encourage safer driving.

You will see reduced incident rates, reduced vehicle down-time (lower operational costs), reduced insurance premiums and reduced injury compensation claims, coupled with lower employee absenteeism.

Happier and safer employees, reduced risk and the certainty that you are meeting your road risk compliance duties across the globe. A great business case!

Fuel+

Our Global Fuel Card Programme

Fuel+ from TMC is a unique fuel management service.

We work with a number of fuel card and travel & expense card partners and help you select the card programme that best suits your objectives.

We can help you with global, regional or national fuel card strategies.

How it works

1. We help you select the card/portfolio of cards that best suit your needs – whether that be coverage, discounted fuel, maximizing rebates or a blended solution based on geography or employee grade. Or you can stay with your existing fuel partner, if you are happy with them.
2. TMC manages the card issue and control and assumes all administrative and supply chain responsibilities.
3. All fuel purchases are reviewed and audited to ensure there is no fraud and that they are in line with policy.

4. We can also contact employees directly when fuel card usage looks out of line with policy and where required, reinforce the purchase of fuel from lower cost filling stations.
5. We check that fees and discounts on purchases are correctly applied.
6. We can also overlay trip data from telematics or claim data to ensure the right checks and balances are in place to control your fuel card spend.

TMC manage the whole programme, while you benefit from actionable business intelligence, audited mileage and seamless integration with SAP Concur.

We offer powerful reporting suites, showcasing all fuel data, across all regions. Available at a press of a button.

This programme offers fantastic savings on fuel costs - we maximise rebates, minimise employee travelling time to fills, while offering a fully managed and transparent global solution.
